

# Shaping Written Knowledge: The Genre and Activity of the Experimental Article in Science

By Charles Bazerman

Edited for digital presentation by Patricia Klei

In *Shaping Written Knowledge*, Charles Bazerman traces the history and character of the experimental article in science, calling attention to the social and rhetorical forces that shaped its development. Truly a landmark in writing studies, this book provides a broadly interdisciplinary exploration of an important genre and offers insights that extend far beyond its immediate focus of study.

The forms taken by scientific writing help to determine the very nature of science itself. In this closely reasoned study, Charles Bazerman views the changing forms of scientific writing as solutions to rhetorical problems faced by scientists arguing for their findings.
